

**PSYCHOLOGY RESEARCH ASSISTANT at the
Institute of Living/Hartford Hospital's Anxiety Disorders Center**

The Anxiety Disorders Center at the Institute of Living/Hartford Hospital is seeking a full-time Research Assistant to coordinate projects in psychological and psychiatric research. Primary responsibilities will be on a study investigating the efficacy of cognitive-behavioral therapy for suicide prevention. Other project coordination will involve studies investigating the psychophysiology of anxiety and related disorders as well as the relationship between psychophysiology and treatment response. Duties will include participant recruitment, collecting study data, and database management. Other responsibilities may include assistance with grant preparation and article writing, preparation of study materials, and data analysis. The research assistant will have opportunities to co-author scientific papers and journal articles.

Qualifications include a BA/BS in psychology or related field, including coursework in research methods and/or statistics. An advanced degree beyond the BA/BS is not needed. Successful candidates will demonstrate a conscientious work style and strong interpersonal skills. This is an excellent entry-level position for a college graduate who is interested in gaining additional research experience before going on to graduate study.

Anticipated start date is in Fall 2019. Applications will be accepted until the position is filled. Please e-mail cover letter and resume/curriculum vitae to: Gretchen J. Diefenbach, Ph.D., The Institute of Living/Hartford Hospital at Gretchen.Diefenbach@hhchealth.org.
