Position: Full-time Research Assistant

The Dare Institute of the Dare Association, Inc. is looking for an energetic, organized, personable, positive, motivated and flexible research assistant to start this fall. The position involves a wide range of tasks including, but not limited to, designing and coordinating research studies, writing research proposals, analyzing data using SPSS, R, or Winsteps, writing and editing research papers, managing journal submissions, and supervising interns. Research assistants have frequent opportunities to publish their work and present the findings at conferences.

The Dare Institute conducts research on human decision-making and development within the contexts of academia, economics, politics, institutions, businesses, medicine, and the law. Most of the research refers to the behavioral-developmental Model of Hierarchical Complexity (MHC).

Educational and other requirements:
● Bachelor’s degree in Psychology or a related field such as Economics, Government, Biology, Computer Science, Mathematics, or Statistics
● Research experience is required
● Ability to work independently and self-motivate
● Excellent oral and written communication skills

Preferred but not required:
● Scientific writing experience (i.e., thesis, independent studies, co-authorship in journal articles)
● Statistical analysis experience using IBM SPSS
● Programming experience

This position has a flexible start date and flexible hours. Compensation is $13.50/hour. Interested candidates should email a cover letter and resume to Dr. Michael Lamport Commons (commonsmlc@gmail.com) and Eliza Going (elizafinngoing@gmail.com).

My best,

Michael Lamport Commons, Ph.D.
