

**Full-Time Lab Manager at University of Oregon's
The Developing Brains in Context Laboratory**

The Developing Brains in Context Laboratory at the University of Oregon is seeking a full time Laboratory Manager.

Under the direction of Dr. Kate Mills, the Developing Brains in Context Lab investigates the social, biological, and cognitive processes that underlie the development of social navigational skills. The lab integrates social network analysis with laboratory assessments (behavioral and neuroimaging methods), and social environmental measures (e.g., neighborhood metrics), to examine how a child's social environment affects the development of cognitive and behavioral strategies. A main goal of this research is to understand how the prolonged development of certain brain systems can facilitate cultural learning during childhood and adolescence. Current projects include investigations of digital technology use on neurocognitive development, social stress on social cognitive development, adaptive use of mentalizing, and the development of internalized models of social agents.

The Lab Manager will oversee the daily operations of the lab and coordinate with Dr. Mills across multiple research projects. The Lab Manager will train research personnel, including NTTF employees, coordinate and track recruitment and retention of subjects, run assessment sessions including neuroimaging and classroom-based assessments, conduct telephone interviews, manage and analyze neuroimaging and behavioral data, and act as the liaison of the laboratory to on- and off-campus organizations. The Lab Manager is also expected to interact with Research Compliance Services to facilitate protection of human subjects. The successful candidate will have the ability to work effectively with faculty, staff and students from a variety of diverse backgrounds.

Please apply online in response to this post: <http://careers.uoregon.edu/cw/en-us/job/522753/pro-tem-research-assistantassociatepostdoc-psychology-open-pool>. Please submit a cover letter clearly stating your research area(s) of interest, contact information for three professional and/or academic references, and your CV. Please indicate the specific position described in this advertisement (Developing Brains in Context Lab Manager; PI: Mills) in your cover letter.
