Full-Time Research Aide Position, Rutgers University-Newark  
Learning and Decision Making Lab  
PI: Elizabeth Tricomi

Applications are invited for a full-time Research Aide position for a lab investigating human learning and decision making using behavioral, physiological, and fMRI methods. The job involves doing research on a project investigating the effects of stress on neural processing and cognitive performance, as well as performing some administrative duties, such as managing IRB protocols, ordering supplies, etc.

The position requires a Bachelor’s degree in Psychology, Neuroscience, or a related field. 2-year commitment preferred. All candidates should have excellent organizational abilities, expertise with computers, and effective written and oral communication skills. Research experience, familiarity with statistics, and computer programming skills are desirable. The position would begin in May, 2018, or as soon as the candidate is available. Interested candidates should send a cover letter, resume, and three letters of recommendation by e-mail to etricomi@rutgers.edu, with the subject line Research Aide Position.

Review of applications will begin immediately and will continue until the position is filled.

Rutgers is an Affirmative Action/Equal Opportunity Employer.
