

Research Coordinator Georgetown University Laboratory for Relational Cognition

The Georgetown Laboratory for Relational Cognition, directed by Adam Green, anticipates hiring a research coordinator for an NSF-funded study of concept development and reasoning in real-world high school STEM education. Primary responsibilities will include interfacing with students and families as well as teachers and school administrators. Depending on level of interest, the research coordinator will have substantial opportunity to engage with all aspects of the project, including collection and analysis of behavioral and brain-imaging data. This project seeks to contribute to bridging the gap between the real-world classroom and the cognitive neuroscience laboratory.

The preferred start range for this position is early summer of 2021. Compensation is based on Georgetown pay scales, depending on qualifications and experience.

To apply:

Applicants should send a cover letter describing relevant experiences and career goals, a current resume/CV, a college transcript, and names and contact information of two people who can readily comment on the applicant's skills relevant to this position to cnglab@georgetown.edu. Please send any questions to Grace Porter, at gp548@georgetown.edu. To learn more about the lab, visit our website: cng.georgetown.edu

Georgetown University is an Equal Opportunity/Affirmative Action Employer and all qualified applicants will receive consideration without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law. If you are a qualified individual with a disability and need a reasonable accommodation for any part of the application and hiring process, please see the Georgetown website for more information, or contact the Office of Institutional Diversity, Equity & Affirmative Action (IDEAA) at (202) 687-4798. This position requires a criminal background check performed by Human Resources.
