Full-time paid Research Assistant Position
at the University of Pittsburgh Department of Psychology
(preferred start of June 2018)

The Social-Health and Affective Neuroscience (SHAN) Lab, directed by Tristen Inagaki is seeking a full-time paid research assistant to begin in June 2018 to assist with studies on the neurobiological mechanisms linking social connection and health. Major duties include recruiting, screening, and running fMRI and behavioral studies, overseeing undergraduate research assistants, and maintaining the lab.

**Desired Qualifications:**
- Strong interest and motivation to pursue neuroimaging research in the area of social affective neuroscience and/or health neuroscience
- BA in Psychology, Neuroscience, or related field
- 2-3 years of research experience in Psychology, Neuroscience, or related field
- Excellent written and verbal communication skills
- Highly organized, ability to multi-task
- Proficient with Matlab and/or ePrime preferred
