Lab Manager/Research Assistant Position at University of Miami’s
Brain Connectivity and Cognition Laboratory

The Brain Connectivity and Cognition Laboratory in the Department of Psychology at the University of Miami invites applicants interested in a Lab Manager/Research Assistant position beginning in summer 2018 (ASAP). The position will involve responsibilities including recruiting and scheduling participants for research studies, data collection (MRI and behavioral), neuroimaging data analysis, administrative duties, IRB management, and general management of lab operations. Individuals with an interest in the neurobiology of autism are particularly encouraged to apply. Successful applicants will have completed an undergraduate degree in psychology, neuroscience, or a related field. The job requires exceptional organizational skills, high motivation and initiative, the ability to work with children, and the ability to interact efficiently and courteously with others. The position requires a 1-2 year commitment.

Interested applicants can send their CV, three letters of reference, and a cover letter describing their research interests and career goals to Dr. Lucina Uddin (l.uddin@miami.edu). Additional information can be found at (http://www.psy.miami.edu/bccl/).
