

We are looking to recruit a **Research Technician at the Northeastern University** to work on an NSF-funded project with **PIs Ajay Satpute and Lisa Feldman Barrett** in the department of psychology. The project examines the behavioral, neural, and physiological correlates of affective processing. The position will involve human subjects recruitment for fMRI and peripheral physiology studies, data analysis, and general lab support. A BA/BS degree by the start date of the position is required. Prior experience conducting behavioral research is recommended. The start date is late summer (around 8/15/2021).

To apply, please use the online submission form: <https://careersmanager.pageuppeople.com/879/ci/en-us/job/506290/research-technician>

Any informal inquiries with questions about the position can be directed to the lab email abslab.nu@gmail.com with a subject line that contains "Lab Technician".

For information on recent projects in the lab, please click here: <https://web.northeastern.edu/affectiveandbrainscienceslab/>

Northeastern University is an equal opportunity employer, seeking to recruit and support a broadly diverse community of faculty and staff. Northeastern values and celebrates diversity in all its forms and strives to foster an inclusive culture built on respect that affirms inter-group relations and builds cohesion. All qualified applicants are encouraged to apply and will receive consideration for employment without regard to race, religion, color, national origin, age, sex, sexual orientation, disability status, or any other characteristic protected by applicable law.
