Two Full-Time Research Assistants at University of Pennsylvania’s Kable Laboratory

The Kable laboratory in the Department of Psychology, University of Pennsylvania is seeking two full-time Research Assistants. The lab uses techniques from social and cognitive neuroscience and experimental economics to investigate decision processes and their neurophysiological mechanisms in humans. This position would be ideal for a recent graduate looking for additional research experience and offers the opportunity to be involved in a vibrant and active laboratory. The position would ideally start in summer of 2019.

DUTIES:

The holder of this position will be actively involved in conducting research in the lab, including recruiting participants, preparing experimental materials, and collecting and analyzing data for behavioral and neuroimaging experiments. Research specialists will also be responsible for administrative activities for the lab such as managing finances and coordinating lab activities, managing IRB and grant submissions, and supervising undergraduate research assistants.

QUALIFICATIONS:

Requirements: The ideal candidate must have a Bachelor’s degree with some background in psychology, neuroscience, math/computer science or related fields, excellent interpersonal and organizational skills, the ability to work flexibly and learn a wide range of new skills, and the enthusiasm and motivation to solve problems independently.

Preferred: Familiarity with statistics, programming skills (ie, MATLAB), and previous research experience are all highly desirable.

Salary will be competitive and commensurate with experience. Please include a cover letter describing interests and career plans, a CV or resume, and the names and contact information for 3 references. Interested applicants should apply online at https://jobs.hr.upenn.edu/postings/44406 AND https://jobs.hr.upenn.edu/postings/44415. Because we are hiring two research specialists, applicants should submit their materials to both links. Inquiries about the position can be addressed to Dr. Kable, kable@psych.upenn.edu.
