

Two Project Coordinator Positions at Developmental Social Neuroscience Lab, UNC Chapel Hill

The Developmental Social Neuroscience Lab at UNC Chapel Hill, directed by Dr. Eva Telzer, is seeking to hire two project coordinators to contribute to an NIH funded project examining the neurodevelopment and social context of adolescent decision making.

Responsibilities will include overseeing participant recruitment, assisting in data collection, data management, and retention efforts. The project coordinators will be joining at the 4th annual wave of data collection. Our participating families come from diverse backgrounds, many of whom are Spanish speaking. The positions are each 40 hours per week, with a 1-year min commitment, and begins Summer 2019. This position is ideal for a recent college graduate interested in pursuing a PhD in a related field as well as professionals looking to work on cutting edge research with adolescent populations. Visit our lab at <http://dsnlab.web.unc.edu/>

The ideal applicant will have a B.S. or B.A. and have a background in psychology, neuroscience, or a related field, exceptional organization and interpersonal skills, independent and flexible thinking, and a commitment to diversity. One position requires fluency in written and spoken Spanish. The Developmental Social Neuroscience Lab at UNC Chapel Hill, directed by Dr. Eva Telzer, is seeking to hire two project coordinators to contribute to an NIH funded project examining the neurodevelopment and social context of adolescent decision making.
