Job Summary The Research Assistant will contribute to the completion of a research study funded by the Templeton Foundation to study communication and rapport among autistic adults.
Candidate must demonstrate strong interpersonal and verbal communication skills to effectively interact with a wide range constituencies in a diverse community. Must also demonstrate the ability to communicate effectively in writing. Candidate must possess strong organizational and time-management skills with the ability to prioritize and manage multiple tasks concurrently. Must also possess the ability to work independently and meet deadlines. A strong focus on attention to detail and accuracy is required. A working knowledge of MS Word and Excel is essential.

Minimum Education and Experience Bachelor’s degree in one of the basic sciences or an equivalent combination of education and experience in customer service or in daily interactions in a public services environment.
Preferred Education and Experience Bachelor’s degree is required (psychology or related major preferred). Familiarity and experience with autism is preferred.
Essential Duties and Responsibilities Primary duties and responsibilities include but are not limited to:
- participant recruitment
- data collection with autistic and non-autistic adults
- data management
- project organization
- coordination with collaborating research sites
