

Nizzi recruitment RA

Vision Lab: face recognition and memory in dementia

- *Cognitive psychology*
- *The project entails coordinating the recruitment of participants for a face recognition and memory study in healthy elderly participants and patients with dementia, as well as gaining experience in vision science by creating stimuli for a face recognition task. Student will be provided guidance and regular meetings with the Grad student in charge of the study but is expected to be able to work autonomously on small, well-defined tasks during the day.*
- *Faculty: Ken Nakayama; Grad Student: Marie-Christine Nizzi*
- *Research in WJH, 7th floor*
- *Email us with a statement of interest at: softdad.research@gmail.com*
- *Looking for pay or for credit.*
