

## Position Summary

The Action Control Lab (<https://actioncontrollab.uoregon.edu>) in the Department of Human Physiology and the Institute of Neuroscience at the University of Oregon is seeking a Laboratory Manager/Research Associate to work on an NIH-funded project investigating the computational roles of inhibition in the human motor system. The Laboratory Manager will be responsible for managing the daily operations of the laboratory. Specific roles will include organizing research materials, scheduling research meetings, recruiting human subjects, testing human subjects, collecting data, analyzing data, and preparing reports of the research for dissemination.

This position is ideal for candidates interested in motor neuroscience, cognitive neuroscience, brain stimulation, electrophysiology, and neuroimaging. We are looking for a highly conscientious and motivated individual with excellent communication, organizational, and coding skills.

## Minimum Requirements

- Bachelors degree in Neuroscience, Human Physiology, Psychology, or a related discipline.
- Experience with human subjects research.
- Computer coding skills.

## Professional Competencies

- Excellent organizational and interpersonal skills
- Strong computer coding and technical skills (Python, Matlab, and/or R).
- Strong writing skills demonstrated through written communication (publications are a plus).

## Preferred Qualifications

- Experience in the planning, implementation, and tracking of a research project comprising multiple assessments and/or large samples.
- Experience in recruiting and consenting human subjects.
- Experience in collecting and analyzing research data.
- Familiarity with signal processing and/or neuroimaging.
- Demonstrated interest in open science and reproducible research practices
- Demonstrated commitment to diversity, equity, and inclusion.
