

VOLUNTEER RESEARCH ASSISTANTS NEEDED AT

Children's National Hospital Center for Autism Spectrum Disorders

DEADLINE TO APPLY MARCH 9th

WHAT IS THE REACH STUDY?

- Dr. Alan Gerber's research focuses on autistic adolescent loneliness and mental health

WHAT SKILLS CAN YOU GAIN?

- Gain experience using EEG and EMA methodologies
- Gain hands-on experience working with research participants
- Opportunity for poster submission to conferences

WHO'S A GOOD FIT?

We are seeking motivated undergraduate students interested in a summer volunteer opportunity. This position is unpaid; applicants should plan to receive academic credit or funding through their university or external sources. We are happy to work with students to support this experience, counting toward course credit, fellowships, or other funding opportunities. The position requires a commitment of 10–20 hours per week, in-person, at our Shady Grove, MD location.
