

Clinical Research Coordinator positions  
University of Pennsylvania

Applications due by Friday, June 11

To apply, visit this link: <https://www.hr.upenn.edu/PennHR/careers-at-penn>. Note instructions on how to apply based on whether the candidate is an internal (i.e. already have a Workday account at Penn) or external applicant. You can find the two positions by searching the job requisition numbers. We look forward to considering your application!

We have two Clinical Research Coordinator (CRC) A positions to support Dr. Rinad Beidas' implementation science research portfolio

- Job Requisition: **JR00033145**. For applicants who have interest in behavioral nudges, implementation science, cancer care delivery research, and/or firearm interventions in pediatric primary care.
- Job Requisition: **JR00033148**. For applicants who just completed their undergraduate degree and have strong interest in HIV research and community-partnered work.

We have a CRC A position to support a research study on data collection about elementary school students with autism, which is co-led by Dr. David Mandell, Dr. Emily Becker-Haimes, and Dr. Heather Nuske.

- Job Requisitions: **JR00033151**. For applicants who have interest in autism, participatory design, behavioral nudges, data collection, and/or interventions leveraging technology.

Adina Lieberman, MPH (she/hers)
