

The Neuroscience Laboratory of Social Behavior at the University of Alabama Birmingham is seeking applicants for a full-time research assistant position.

The successful applicant will help collect and analyze behavioral and MRI data of NIMH-funded projects that examine social brain health of people with schizophrenia spectrum disorder and infectious disease. This is an ideal position for someone who is interested in applying for graduate school or medical school in a year or two, as there will be opportunities to learn a variety of skills (e.g., clinical interviewing, data analysis, statistics) and present study findings at scientific meetings.

Review of applications will begin right away and continue until the position is filled. For questions, please contact Junghee Lee, PhD (jungheele@uabmc.edu). To submit your application, please use the link [here](#) or email Junghee Lee, PhD (jungheele@uabmc.edu)
