

**Research Assistant (Lab Manager) position available**

Fralin Biomedical Research Institute at Virginia Tech Carilion  
Roanoke, Virginia

A full-time research assistant (lab manager) is sought for the labs of Dr. Pearl Chiu, Dr. Brooks King-Casas, and Dr. Stephen LaConte at the Fralin Biomedical Research Institute at Virginia Tech Carilion (<http://research.vtc.vt.edu>). Projects in the labs combine methods from experimental and clinical psychology, neuroscience, and behavioral economics with functional neuroimaging to investigate decision-making in healthy and clinical populations (focusing on adults with mood, anxiety, personality, or substance-use disorders, and at-risk youth). Some projects involve biological sample collection and/or image acquisition with various animals.

The research assistant will be responsible for recruiting and assessing research participants, implementing all aspects of study protocols, and maintaining positive communication with research participants and collaborators. Data collection involves various modalities: behavioral tasks, imaging (e.g., fMRI, MEG), clinical interviews, and/or biological assays (e.g., urine, saliva). Additional duties include managing participant databases, relevant IRB protocols, and project funds. The research assistant is an essential member of the labs and will be responsible for maintaining overall knowledge of all projects. The research assistant will also facilitate day-to-day logistics of the labs. Training will be provided for all aspects of the position.

This is an excellent position for candidates interested in graduate school in cognitive or clinical psychology, neuroscience, and related fields. For motivated individuals, there may be opportunities to be involved with data analysis. Preference will be given to candidates who are willing to make a two-year commitment.

Minimum requirements include: 1) BA/BS in psychology, neuroscience, biology, or related field; 2) two years of research experience; 3) ability to work both independently and collaboratively; 4) demonstrated organizational skills and attention to detail; 5) demonstrated ability to multitask and succeed in a fast-paced research environment; 6) excellent written and oral communication skills; 7) proficiency with Microsoft Office or equivalent.

Required application materials: Cover letter, CV/Resume, and a list of references. Two letters of recommendation will be required prior to interview. Consideration of applications will begin April 10, 2022, and will end once the position is filled. Expected start date is late spring/early summer 2022.

The Fralin Biomedical Research Institute at Virginia Tech Carilion is an Affirmative Action/Equal Opportunity employer and is committed to cultural diversity and compliance with the Americans with Disabilities Act.
