

## Lab Manager at the University of North Carolina at Chapel Hill

Dr. Jamilah Silver is hiring a **Lab Manager / Research Program Manager** in the Department of Psychology and Neuroscience at the University of North Carolina at Chapel Hill. This is a **full-time, 3-year time-limited position** supporting a developmental psychopathology research program focused on **irritability and transdiagnostic risk processes across early childhood and adolescence**.

The role involves coordinating multiple research studies using **multi-method approaches** (e.g., behavioral assessments, ecological momentary assessment, physiological monitoring such as HRV, EEG, digital phenotyping, and longitudinal follow-ups). Responsibilities include managing day-to-day lab operations, coordinating participant recruitment and scheduling, maintaining regulatory compliance, overseeing data collection workflows, and supervising undergraduate research assistants.

Key details:

- **Position:** Soc/Clin Research Assistant – Advanced (Lab Manager)
- **Institution:** UNC–Chapel Hill, Department of Psychology and Neuroscience
- **Location:** Chapel Hill, NC (hybrid possible depending on study phase)
- **Salary range:** \$45,000–\$55,000
- **Appointment:** Full-time, time-limited (3 years)
- **Application deadline:** **March 30, 2026**

Minimum qualifications include a **bachelor's degree** (or equivalent training/experience). Preferred experience includes developmental or clinical research with children/adolescents, multi-method data collection (e.g., EMA, physiological data, EEG), supervising research assistants, and data management.
