

Research Assistant - (22001303)

Description

Under the supervision of Dr. Ellman, the research assistant will aid in collecting and managing data in a multi-site study. The research assistant will be involved in data collection at all time points and will administer semi-structured clinical interviews and cognitive tasks. The research assistant will also assist lab staff with daily lab operations such as recruiting participants, managing data, supervising undergraduate volunteers. The ideal candidate will have prior experience working in a psychological research lab and working with participants with psychological disorders. Perform other duties assigned.

This is a grant-funded position.

Employment at Temple University means much more than a competitive salary. Temple strives to maintain a culture of diversity and inclusivity and provide employees with opportunities for growth and advancement. You will enjoy a collaborative working environment that values innovation and creativity. Our health and wellness benefits are among the best in the region, and our retirement savings plans allow you to plan for the future. Temple University offers many opportunities for employees to enhance skills, gain new perspectives and grow professionally. For example, you can earn your bachelor's degree or an advanced degree through our tuition remission benefit or develop your management and leadership skills in one of our HR Learning and Development's academies. Temple University employees also enjoy recreational, entertainment, and cultural activities both on campus and throughout the Philadelphia region.
