

## Research Assistant in Social and Affective Neuroscience Lab at Northeastern University

### About the Opportunity

#### Responsibilities:

The research assistant (RA) will be hired to conduct research. The position will primarily involve recruiting participants for behavioral, neuroimaging (fMRI), and physiological (cardiac, electrodermal, respiratory) data collection. The position will also involve coordinating and managing undergraduate research assistants and working with graduate students and postdocs to fulfill research goals. The RA will have opportunities to present research findings at conferences (e.g. as poster presentations). The RA may also be involved in data quality checks, data preprocessing and analysis, and supporting manuscript preparation for research findings. Additional duties may include lab maintenance (website, coordinating lab meetings, writing summaries of group meetings, contributing to a friendly and respectful lab culture).

#### Qualifications:

A BA/BS or MS degree is required preferably in psychology, neuroscience, or related disciplines. A degree in another field, but with evidence of substantial coursework and/or training in the above areas, will also be considered. Highly desirable skills include experience in working with human participants in research studies or in clinical settings, strong social and organizational skills, and experience in interacting with individuals from diverse backgrounds. Other valuable skills include: experience in scientific writing, programming, acquiring and/or analyzing behavioral, physiological, or neuroimaging data. Training opportunities for skill development will also be provided.

#### Position Type

Research

#### Additional Information

Northeastern University is an equal opportunity employer, seeking to recruit and support a broadly diverse community of faculty and staff. Northeastern values and celebrates diversity in all its forms and strives to foster an inclusive culture built on respect that affirms inter-group relations and builds cohesion.

All qualified applicants are encouraged to apply and will receive consideration for employment without regard to race, religion, color, national origin, age, sex, sexual orientation, disability status, or any other characteristic protected by applicable law.

To learn more about Northeastern University's commitment and support of diversity and inclusion, please see [www.northeastern.edu/diversity](http://www.northeastern.edu/diversity).
