

Research Assistant in the Schizophrenia and Social Cognition Lab at the University of Texas as
Dallas

The Schizophrenia and Social Cognition Lab at The University of Texas as Dallas is looking to hire one full-time research assistant to help with a NIMH funded study that will systematically develop and validate assessments that are appropriate for measuring social cognition in individuals who are at clinical high-risk for developing psychosis. The full job posting can be found here (<https://jobs.utdallas.edu/postings/28477>) and just in case there's any confusion, the posting number is S06170P.

Primary duties and responsibilities include, but are not limited to: subject recruitment; subject testing (behavioral testing and EMA); data management; project organization. Bachelors' degree is required. Candidate must demonstrate strong interpersonal and verbal communication skills to effectively interact with a wide range of constituencies in a diverse community. Strong organizational and time-management skills with the ability to prioritize and manage multiple tasks concurrently are also desired.

Questions and inquiries can be sent to Amy Pinkham, Ph.D. at amy.pinkham@utdallas.edu
