

Research on communication patterns and suicide behavior

RESEARCH PROJECT ASSISTANT

Our lab at the University of Pittsburgh has a full-time Research Project Assistant position open for an NIMH-funded project on communication in romantic couples and suicide behavior. Study includes a focus on interpersonal dynamics and the use of observational assessments in the lab, ecological momentary assessment, and psychophysiological (e.g., ECG) measurement.

This position is ideal for individuals interested in gaining more research and clinical experience, including clinical interviewing and safety planning as well as management and scoring of multimodal data. Successful candidates will work primarily with Drs. Stephanie Stepp, Amy Byrd, and Salome Vanwoerden.

Looking for someone who can start immediately.

Interested applicants can submit an application using the QR code below & send a cover letter and CV to: stahlerj@upmc.edu

Qualifications:

- Bachelor's degree required, preferably in Psychology, Neuroscience, Sociology or related field.
- Minimum 2 years of research experience (can be from undergraduate).
- Working knowledge of research methodology strongly preferred.
