

Research Study Coordinator at Northwestern University

We are seeking a Research Coordinator to join the Braga Lab in the **Department of Neurology** at the **Northwestern University Feinberg School of Medicine**. Under the mentorship of Rodrigo M. Braga, PhD, the lab uses and develops neuroimaging techniques that focus on revealing the brain's detailed network organization within individuals. Research topics broadly address the role of the distributed networks in cognition.

The Braga Lab is investigating the relationship between brain activity in large-scale networks and cognitive functions that are advanced in humans, such as language or thinking about the past or future. These functions are located in regions of the brain that have disproportionately expanded in recent hominin evolution and are spatially separated from the sensory processing hierarchies. By mapping brain networks with precision within individuals using functional MRI, we can make insights into their specialization and function.

The Research Study Coordinator will coordinate collection, analysis, processing & reporting of data & assist the Principal Investigator (PI) in judging the validity of test data obtained in regard to biomedical &/or social-behavioral research study(ies) of limited complexity involving co-investigators, multiple campuses &/or universities; complete all activities by strictly following Good Clinical Practices (GCP) & all relevant current local, state, & federal laws, regulations, guidance, policy & procedure developed by the NU Institutional Review Board (IRB), Food & Drug Administration (FDA) Code of Federal Regulations (CFR), & the International Conference on Harmonization (ICH); perform and assist with laboratory experiments related to behavioral experiments, magnetic resonance imaging and intracranial electrophysiology and electrical stimulation. Most hours will be during daytime hours on weekdays, however, occasional evening and weekend shifts could be required.

Northwestern University is an Equal Opportunity, Affirmative Action Employer of all protected classes, including veterans and individuals with disabilities. Women, racial and ethnic minorities, individuals with disabilities, and veterans are encouraged to apply. Hiring is contingent upon eligibility to work in the United States.

Benefits:

At Northwestern, we are proud to provide meaningful, competitive, high-quality health care plans, retirement benefits, tuition discounts and more! Visit us at <https://www.northwestern.edu/hr/benefits/index.html> to learn more.

Work-Life and Wellness:

Northwestern offers comprehensive programs and services to help you and your family navigate life's challenges and opportunities, and adopt and maintain healthy lifestyles.

We support flexible work arrangements where possible and programs to help you locate and pay for quality, affordable childcare and senior/adult care. Visit us at <https://www.northwestern.edu/hr/benefits/work-life/index.html> to learn more.

Professional Growth & Development:

Northwestern supports employee career development in all circumstances whether your workspace is on campus or at home. If you're interested in developing your professional potential or continuing your formal education, we offer a variety of tools and resources. Visit us at <https://www.northwestern.edu/hr/learning/index.html> to learn more.

Northwestern strongly recommends COVID-19 vaccinations and boosters for people who can obtain them as a critical tool for minimizing severe illness. More information can be found on the [COVID-19 and Campus Updates](#) webpage.

The Northwestern campus sits on the traditional homelands of the people of the Council of Three Fires, the Ojibwe, Potawatomi, and Odawa as well as the Menominee, Miami and Ho-Chunk nations. We acknowledge and honor the original people of the land upon which Northwestern University stands, and the Native people who remain on this land today.
