

UNIVERSITY OF South Carolina

Research Specialist Position

Assist with research on: Aging • Fragile X-associated Conditions • Genetics • Neurodegenerative Disease • Family Health • Autism & Neurodevelopmental Disabilities

Dr. Jessica Klusek and the SC Family Study are seeing a **full-time Research Specialist** to assist with a longitudinal NIH-funded study examining:

- Aging and neurodegenerative disease risk in women who carry a fragile X gene mutation
- Neurodevelopmental disabilities, including fragile X syndrome, intellectual disability, & autism
- Family adaptation, caregiving, and health across the lifespan

Specialists will gain hands on experience with: Human subjects research ; Clinical and behavioral assessment ; Participant recruitment and interviewing ; Data management and analysis ; Dissemination of research findings

Ideal candidates: This position is ideal for individuals interested in gaining research and/or clinical experience relevant to the fields of psychology, speech-language pathology, neuroscience, medicine, genetic counseling, occupational therapy, public health, and related fields.

This is a **full time, two-year position with full benefits**, with the option to extend beyond the initial appointment.

Timeframe: Applications will be accepted a rolling basis until the position is filled.

How to Apply: Apply at <https://uscjobs.sc.edu/postings/206765> (Posting # RTF00116PO26)
