

Research Technician in the PACER Lab at Purdue University

Responsibilities Include:

Help day-to-day lab operations including recruitment and scheduling.

Management of clinical, EEG, and cognitive data.

In-person data collection which can include any combination of clinical, cognitive, and neurophysiological assessments.

Assisting the lab director with volunteer training.

Conduct mentored or independent research is desired.

Who We Are:

The research in the PACER Lab delves into the intricate patterns of brain activity and their reflection of psychological and behavioral processes. Through neuroimaging techniques in the laboratory, we uncover the complexities of the human mind. Learn more about our research at <https://www.pacer-lab.com/>
