

Study Coordinators at the University of Arizona

The Neuroscience of Emotion and Thought Lab (PI: Dr. Jessica Andrews-Hanna, www.netlabgroup.com) in the Department of Psychology at the University of Arizona is seeking to hire two study coordinators to assist with newly-funded studies examining how emotion, thoughts, and flexible behaviors differ across individuals and change over time. The projects will integrate a variety of behavioral, physiological and naturalistic approaches, and are part of collaborative studies involving research laboratories at three other institutions.

Responsibilities include managing day-to-day study activities including participant recruitment, multi-session data collection and communication with other study sites. Study personnel will also provide assistance with IRB protocol preparation, compliance reporting, data management, and supervision of undergraduate research assistants.

The position will ideally start in late 2026, but the start date is flexible. This is a one-year position renewable contingent on performance. Outstanding UA benefits include health, dental, and vision insurance plans; life insurance and disability programs; paid vacation, sick leave, and holidays; UA/ASU/NAU tuition reduction for the employee and qualified family members; state and optional retirement plans; access to UA recreation and cultural activities; and more.

Review of applications will begin immediately and continue until the position is filled.

Interested individuals can find details and qualifications for each position below, and apply through whichever link fits with the applicant's level of experience. Questions regarding the position can be directed to Dr. Jessica Andrews-Hanna (jandrewshanna@arizona.edu) and Dr. Yuhua Yu (yuhua@arizona.edu).
