Under the supervision of the PIs and postdoctoral fellow, the SRA I will assist with various day-to-day tasks of the research procedures. The SRA I will assist with recruitment, enrollment and tracking of study activities of research participants. The SRA I will attend project meetings, coordinate with and provide support to stakeholders and other staff involved in the project (e.g., school administrators, investigators, research assistants). The SRA I may conduct interviews and other assessments with research participants, collect data from program records and other sources, perform and manage data entry, assist with data analysis, code qualitative data, assist in the preparation of reports, and assist with other tasks as needed to conduct the research project. Research populations will include high school students receiving preventive interventions.
