

hiring a full-time research assistant!

We are looking for a highly motivated student to come join us at the Center for Psychotherapy Research at the University of Pennsylvania as a clinical research assistant. This opportunity is an especially good match for someone who is *looking to pursue a PhD in clinical psychology, passionate about psychotherapy research, and interested in community research.*

Our research assistant helps us organize and execute an NIMH and foundation-funded research program focused on evaluating the effectiveness and mechanisms of change of interventions for mental health disorders. We primarily conduct our research in a community setting, partnering with large community mental health clinics in the Philadelphia area.

We aim to provide our assistants with a broad range of responsibilities to expose them to all steps of the research process in preparation for the pursuit of a PhD. Duties would include preparing study materials, coordinating study-related IRB paperwork, conducting data analyses, assist with manuscript preparation, coordinate and conduct assessments, and more.

opportunities:

- Coordinate multiple grant-funded protocols
- Contribute to multiple research teams through various partnerships
- Supervise undergraduates
- Independent work environment
- Attend conferences
- Exposure to clinical populations
- Contribute to grant applications
- Presentations and publications

qualifications:

- Undergraduate psychology degree
- Interest in pursuing graduate education in clinical psychology
- Able to work independently, be detail-oriented, and communicate efficiently
- Proficient knowledge of Microsoft Excel and Word
- Knowledge of SPSS

interested?

Please promptly send a cover letter and CV/resume to Lang Duong at lang.duong@pennteam.upenn.edu. Be sure to highlight previous research experience.
