

The Mood and Anxiety Disorders Program at Baylor College of Medicine (Houston, TX) is excited to invite passionate and skilled individuals to join our team as Research Coordinators. As a Research Coordinator, you will play a pivotal role in our ongoing FDA-regulated clinical trials, encompassing both industry and NIH-funded projects focused on investigating the effects of novel drugs for treating generalized anxiety disorder, major depressive disorder, and post-traumatic stress disorder. Experimental studies include investigating the efficacy of ketamine and deep brain stimulation for managing treatment-resistant depression.

Key Responsibilities:

- **Patient Recruitment:** Engage in patient recruitment through phone screening and community outreach processes.
- **Coordination:** Facilitate communication and coordination between centers, sponsors, and other stakeholders.
- **Patient Visits:** Lead patient visits, covering essential tasks such as obtaining informed consent, conducting clinical assessments, administering ECGs, data entry and management, etc.
- **Versatility:** Embrace additional duties as assigned, contributing to the diverse and dynamic nature of our research initiatives.

Opportunities for Growth: Beyond the core responsibilities, our Research Coordinators have the opportunity to:

- Engage in other exciting projects within the lab including mentoring undergraduate interns.
- Contribute to the publication of peer-reviewed articles and poster presentations.

Ideal Candidates: This position is ideal for individuals with a keen interest in pursuing graduate education in psychology, neuroscience, medicine, or related professions. If you are passionate about making a meaningful impact in the field of mental health research, we encourage you to apply.

Timeline: We are looking to have Research Coordinators start immediately. We will interview candidates until March 1, 2024. The ideal candidate is able to commit to two years.

How to Apply: Please forward your CV or resume and expression of interest, including the names and contact information for three references, to Dr. Sanjay Mathew at sjmathew@bcm.edu.
