

Clinical Research Coordinator at MGH

Location: Massachusetts General / Boston MA

We are currently looking to hire **2-4 full-time clinical research coordinators** (start date summer 2024) to join us at Massachusetts General Hospital/Harvard Medical School and assist with NIMH- and American Foundation for Suicide Prevention-funded studies aimed at improving short-term risk prediction for suicidal behavior in adolescents. Studies assessing proximal risk for suicidal behavior use computational methods to model neurocognitive markers and/or ambulatory indices (i.e., mobile technology including actigraphy, passive sensing of physiological arousal, passive sensing of social engagement and physical activity, and ecological momentary assessment) in psychiatrically hospitalized youth (see [RF1MH120830](#), [R01MH124899](#), [R01MH115905](#), [K23MH126168](#)). Additional studies focus on employing computer vision to identify visual indicators of suicide risk among adolescents ([R21MH127231](#), [YIG-1-020-20](#)). An additional study aims to examine how parent-child stress interactions may be associated with or protect against suicide risk in adolescents using automatic sensing of acoustic and visual behaviors ([R21MH130767](#)). Our most recently funded NIMH study NIMH aims to develop machine learning algorithms with electronic health record data for the prospective prediction of suicide risk among racial, ethnic, and linguistic minority youth.

The research coordinators will work under the mentorship of [Dr. Richard Liu](#) and [Dr. Taylor Burke](#) at Massachusetts General Hospital. The research coordinator positions are particularly well suited for individuals seeking to gain research and clinical experience prior to graduate or medical school.

Clinical research coordinators who demonstrate potential and excel in this position often have opportunities to receive mentorship on conducting independent research projects and grant-writing. More details about these opportunities and a list of our RAs' 1st author papers and extramural grants from their time in our lab may be found [here](#). Applications may be submitted here: <https://www.moodandbehaviorlab.org/crc-application>. **Note that we will be putting out two separate calls for applications (once this fall and again in spring 2024) for CRCs to join us for summer 2024.**
